

THE DEATH PENALTY ON TRIAL BY RON GLEASON, PH.D.

Dr. Gleason rigorously examines the controversy over *Taking a Life for a Life Taken* with clarity and cogency, laying a thorough

groundwork in history, law, and ethics; and then he presents the Biblical mandate.

For secular readers, he illustrates the positions of leading thinkers on both sides, examining their arguments down to the foundational premises.

For Christians – both for and against capital punishment – Dr. Gleason identifies the governing Scriptures and illustrates them with commentary from the confessional statements of the historic Reformed church and some of the foremost voices in the church today.

Proponents on both sides will find the issues in focus and the arguments framed for meaningful discussion. But as he leads readers to the heart of the matter, they may find themselves drawn persuasively to Gleason's conclusion.
